Our Practice

Princeton Spine and Joint Center

offers a full range of diagnostic and therapeutic services for spine and musculoskeletal disorders. Our goal is to eliminate your pain, maximize your function, and improve your quality of life.

We use the most technologically advanced methods combined with a comprehensive examination to diagnose and treat your condition. Treatment and diagnostic options that we provide include and are not limited to:

- Fluoroscopic guided procedures
- Epidural steroid injections
- Facet joint injections
- Sacroiliac joint injections
- Radiofrequency ablation
- Discography
- Electrodiagnostic testing (EMG/NCS)
- Ultrasound guided procedures
- Peripheral joint injections
- Trigger point injections
- Osteopathic manipulations
- Physical Therapy
- Prolotherapy
- Acupuncture

At the **Princeton Spine and Joint Center**, our doctors not only stay up-to-date with the latest musculoskeletal medicine research, they create, publish, edit, and review it. Our doctors not only read textbooks, they write them. Our business model is simple: treat each patient as an individual, with professionalism, excellence, and respect. We are committed to providing the highest quality, evidence-based medical care for spine and musculoskeletal disorders. Our goal is to work with you to eliminate your pain, maximize your function, and improve your quality of life.

With good health, all things are possible.

Our Doctors

Ana Bracilovic, MD, is board-certified and specializes in the non-operative care of spine, joint, and muscle pain, with a special emphasis on biomechanics, and performing arts medicine.

Dr. Bracilovic completed her residency training at New York-Presbyterian Hospital, The University Hospital of Columbia and Cornell, with clinical rotations at Weill-Cornell University Medical Center, Columbia Presbyterian University Medical Center, Hospital for Special Surgery, and Memorial Sloan Kettering Cancer Center.

Dr. Bracilovic received her medical degree from UMDNJ-Robert Wood Johnson Medical School. At the University of Pennsylvania, she completed a dual degree program with bachelor's degrees in biomedical engineering and neural systems, with honors. Dr. Bracilovic has published multiple peer-reviewed articles, received accolades for her research in musculoskeletal medicine at the Hospital for Special Surgery, and serves as a reviewer for musculoskeletal medicine journals.

Zinovy Meyler, DO, is a board certified, fellowship-trained physician who specializes in the non-operative treatment of spine, joint and muscle pain with particular emphasis on image-guided interventional spine and joint procedures. Dr. Meyler completed a fellowship in *Interventional Spine and Musculoskeletal Rehabilitation at the Spine Institute at Beth Israel Medical Center in New York City*.

He obtained additional training in ultrasound guided interventional treatments through the American Institute of Ultrasound Medicine at the Mayo Clinic. Dr. Meyler completed his residency training and served as Chief Resident at New York-Presbyterian Hospital, The University Hospital of Columbia and Cornell, with clinical rotations at Weill-Cornell University Medical Center, Columbia Presbyterian University Medical Center, Hospital for Special Surgery, and Memorial Sloan Kettering Cancer Center. Dr. Meyler received his medical degree at the New York College of Osteopathic Medicine and his bachelor's degree from New York University.

Grant Cooper, MD, is a board certified, fellowship-trained physician who specializes in the non-operative treatment of spine, joint and muscle pain. Dr. Cooper completed a fellowship in *Interventional Spine and Musculoskeletal Rehabilitation at the Spine Institute at Beth Israel Medical Center in New York City*.

He completed his residency training at New York-Presbyterian Hospital, The University Hospital of Columbia and Cornell, with clinical rotations at Weill-Cornell University Medical Center, Columbia Presbyterian University Medical Center, Hospital for Special Surgery, and Memorial Sloan Kettering Cancer Center. Dr. Cooper received his medical degree from UMDNJ-Robert Wood Johnson Medical School and his bachelor's degree with highest honors from Princeton University. Dr. Cooper has authored nine and edited three medical books. He is the author of more than ten peer-reviewed articles, and has received national and international recognition for his research in basic science and clinical musculoskeletal medicine.

Marco Funciello, DO, specializes in the non-operative care of spine, joint and muscular pain and utilizes various techniques in the diagnosis and treatment of musculoskeletal conditions. Dr. Marco Funciello completed his residency training in *Physical Medicine and Rehabilitation through Saint Vincent's Hospital in Manhattan where he was selected as Chief Resident*.

Dr. Funciello received his medical degree from UMDNJ-School of Osteopathic Medicine and his bachelor's degree from the University of Scranton. He received additional training in electrodiagnostic medicine, diagnostic ultrasound, ultrasound-guided interventional procedures, and interventional spine procedures. Dr. Funciello also has additional training in Osteopathic Manual Medicine (OMM) and utilizes these techniques to complement his conservative and holistic approach to the patient. Dr. Funciello focuses on the treatment of the whole person and not just the disease while incorporating a strong emphasis on preventive medicine.
